

Python Basics :

1. Intro to Python:
 - i) Variable
 - ii) Data Type
 - iii) Number
 - iv) Arithmetic operations
 - v) Taking Integer
2. Conditions In Python:
 - i) if,else
 - ii) elif and nested
3. Loops In Python:
 - i) While
 - ii) Do While
 - iii) For Loop
 - iv) Nested Loop
4. Funtions In Python:
 - i) Intro to funtion
 - ii) How it works
 - iii) Defaults Parameter
5. Lists In Python:
 - i) Introduction and operation on lists
 - ii) Indexing and looping in lists
 - iii) Mutable and Immutable
6. String in python:
 - i) Introduction and working .
 - ii) Concatinations and slicing
 - iii) Traversing and operations .
 - iv) comparison
